VOLUME CVI.---NO. 37. ALEXANDRIA, VA., MONDAY EVENING, FEBRUARY 13, 1905. PRICE 2 CENTS.

DO YOU FEEL THIS WAY.

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

O. S. Copenhaver, Esq., of Mount Union, Huntingdon Co., Pa. (Box 222), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicines, using his 'Golden Medical Discovery,' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

COLD WAVE IN THE WEST.

Reports recived in Kansas City last night from Missouri, Minnesota, Kansas, Nebraska, Iowa, the Dakotas, northern Texas, Indian Territory, Arkansas and Oklahoma say that unusually cold weather prevails. In Omaha the thermometer registered 16° below zero at 9 o'clock last night. High winds prevail in many localities drifting the snow badly and delaying railroad traffic in all directions.

At Moran water tank, Kansas, yesterday, the Missouri, Kansas and Texas fast passenger train, No. 21, from Kansas City to Oklahoma City, was wrecked. The train was running as a double-header on account of the heavy snow, and the water from the tank had formed a heavy coat of ice upon the rails, which threw the first engine off the rails, causing the second engine, two baggage cars and mail car to pile up. Engineer C. W. Phelps, of Denison, Texas, who was on the first engine, was killed. Engineer Charles D. Willard, of Parsons, who was on the second engine was badly bruised.

From Oklahoma and Indian Territory comes word that the temperature yesterday was 5° below zero in several places and ranged at zero all day. From all parts of the two territories are being received accounts of suffering and death as the result of the sudden norther which began Saturday. The territory is covered with a coat of ice and snow ranging in depth from three to eight inches, and this will serve as a protection to the wheat and fruit crops; but the live stock and in some instances the people of the two territories are suffering severely.

Cattlemen say that range stock will suffer the greatest loss in years, and some place the loss as high as 30 per cent. on the ranges in Beaver and Woodward counties. Great anxiety is felt for the Indian tribes, who are in no condition to withstand the storm.

In northern Texas the worst blizzard in 10 years, with the thermometer at zero and below, prevails. Coming so soon after the recent blizzards, when snow lay on the ground for 10 days, this severe weather will inflict heavy losses on cattlemen.

In Fergus Falls, Minn., the United States government thermometer registered 38° below zero yesterday.

Distressed Oyster Dredgers.

Twenty-two oyster dredgers—16 white and 6 colored—composing the crews of three oyster schooners which are icebound in the Patuxent river, arrived in Annapolis, Md., yesterday afternoon, having walked the entire distance of 40 miles from Solomon's Island through the snow and cold. All of them told stories of great hardships and bad treatment recived on board the vessels. The men were on the tramp since Thursday last, and when they got to Annapolis most of them had frozen feet. They applied to the police authorities for help. Round Sergeant O'Berry collected some food for them from residents. They were given shelter in the police station for the night.

The dredgers are from the schooners Palmetto, Tony Faust and the Howard Howarth, belonging to the firm of Bradshaw Bros., of Crisfield. They have been frozen in the Patuxent for the last two weeks. Most of the men shipped on the boats from Philadelphia and New York and were employed in dredging for 43 days. Since the freeze set in and the boats could not get out to work they say that rations were short and they could get only a meal and a half a day.

Thursday last, seeing that there was no relief from the ice embargo and as provisions were getting low, the captains of the boats put all of the men ashore, giving them each 50 cents, although they claim that pay for the full 43 days during which they have been employed is due them. The men then decided to walk to Annapolis, and being shown the direction to go started out. They say that the residents of Prince Frederick and other places along the road to Annapolis furnished them with food.

William Smith, one of the negroes of the crowd, was picked up exhausted on the road about five miles from Annapolis. James Tuley, a white man of the party, was left at Prince Frederick in a crippled condition, due to walking. All who reached Annapolis were a pitiful sight to gaze upon. Their feet were frozen and swollen double the size. They will make an effort to recover the money due them for work.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach; liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters I obtained relief, and in a short time I was entirely cured." Guaranteed at E. S. Leadbeater & Sons' drug store; price 50c.

What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and Consequent Pain Stopped by Lydia E. Pinkham's Vegetable Compound

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing down" pains, nervousness and no ambition for any task.

Mrs. Elizabeth H. Thompson

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the womb or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily cures all womb and kidney disorders and restores the female organs to a healthy condition.

Here is one case among thousands:

"I consider Lydia E. Pinkham's Vegetable Compound the most wonderful remedy in the world for sick women. For a long time I suffered with a severe backache and bearing-down pains; in fact, I had womb trouble. Reading of the remarkable cures your Compound had made I decided to try it, and I am happy to say that it not only cured me entirely of all my troubles but made me a strong, well woman."—Mrs. Elizabeth H. Thompson, Lily Dale, N. Y.

No other medicine holds such a record of cures of female ills as does Lydia E. Pinkham's Vegetable Compound.

No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for none have had such a great experience. Her address is Lynn, Mass., and her advice free.

McCue's Insurance.

There has been only one case in this country in which litigation arose over the question of paying insurance on the life of a man who was executed. Still a case has been decided by the Supreme Court of the United States and will no doubt be considered in what promises to be a legal battle over the insurance of McCue. The one case was much similar to that of McCue for it involved the murder of a wife by her husband and his subsequent execution. The Supreme Court compelled the insurance companies to pay back the premiums that had been paid by the condemned man, but absolved them from paying the full value of the policies on the general grounds that it put a premium upon the commission of crime.

One of the insurance companies in which McCue was insured has already declared its intention to pay the $10,000 policy, but other companies may resist payment and bring about another decision on the subject.

Chamberlain's Stomach and Liver Tablets. Unequalled for Constipation.

Mr. A. R. Kane, a prominent druggist of Baxter Springs, Kansas, says: "Chamberlain's Stomach and Liver Tablets are, in my judgment, the most superior preparation of anything in use today for constipation. They are sure in action and with no tendency to nauseate or gripe. For sale by Gibson & Timberman and W. F. Creighton & Co.

There is one rational way to treat nasal catarrh: the medicine is applied direct to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflammed tissue to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tried of vain experiments should use Cream Balm. Druggists sell it for 50 cts. Ely Brothers, 56 Warren street, New York, will mail it.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, FEB. 13, 1905.

THE friction that has been constantly growing more intense between President Roosevelt and the Senate over the pending arbitration treaties finally developed into open rupture Saturday evening when the Senate, by an overwhelming vote, very properly insisted on its own attitude in spite of a letter from the President urging the correctness of his position. The whole quarrel has arisen over a single word. The President in six arbitration treaties between this country and six powers of Europe, used the word "agreement" in the second article of the treaty, which provides that the contracting powers before appealing a case to the permanent Hague Court of Arbitration shall conclude a special "agreement," defining clearly the matter in dispute. The Senate objected to the word "agreement" and insisted on the word "treaty." The Senate held that under a special agreement the President could arbitrate a matter with a foreign country without consulting the Senate, in spite of the requirements of the constitution that negotiations with foreign powers may be conducted by the President only with the consent of the Senate. President Roosevelt has objected to the word "treaty" and has insisted on his own attitude with all his customary determination, going even so far as to threaten that if the Senate struck out his word "agreement" and substituted its own word "treaty" he would refuse to exchange ratifications and thus nullify the treaties. Saturday morning Mr. Roosevelt was informed by Senator Cullom, the chairman of the foreign relations committee, who has the treaties in his charge, that the Senate was unwilling to yield. In reply Mr. Roosevelt sent a long letter to the Senate insisting on the correctness of his position. The Senate that evening by an amazing vote of 50 to 9 struck out the word "agreement" and substituted its word "treaty" as its answer to the President's letter, thus refusing to surrender its traditional "pererogative," and defying the wishes of the President and his administration. As the matter stands, no questions affecting the peaceful relations between this and other countries may be arbitrated until the Senate has given consent. It is believed that the Senate's attitude on this matter is only the first instance of its determination to show that it is determined to maintain its right and that another serious question will arise as soon as the protocol between Commander Dillingham and President Morales, of Santo Domingo, is laid before the Senate.

SOON AFTER Senator Mitchell, of Oregon, had been indicted for the first time in Portland for complicity in the land frauds, he made a dramatic denial of the charges upon the floor of the Senate. At the time it was thought by many that the Senator "doth protest too much," and soon thereafter he was again indicted on similar charges. Mr. Mitchell, in a certain sense, has been under a cloud since he entered the Senate and now he occupies a most awkward position for a United States Senator, for on Saturday his law partner, Judge A. H. Tanner, confessed that he had perjured himself before the federal grand jury in an endeavor to save Mitchell from an indictment for land frauds and yesterday Federal Attorney Heney made public a remarkable letter written by Senator Mitchell to Judge Tanner, suggesting the line of testimony to be given by Tanner before the grand jury. This letter closed with the injunction, "Burn this without fail," but it was surrendered to the federal authorities by H. C. Robertson, secretary to Senator Mitchell. The letter, like Judge Tanner's confession of Saturday, deals wholly with the partnership agreement between Mitchell and Tanner. The government contends that Mitchell received part of the proceeds of Judge Tanner's practice in land cases, thus violating his oath as a Senator. Judge Tanner in his original testimony before the grand jury declared this was not the case, but now he confesses that there was an agreement between him and Mitchell whereby Tanner should receive all proceeds from land office cases, and that Mitchell should receive the proceeds from all of Judge Tanner's practice outside of land cases.

MR. ROOSEVELT in his letter to the Senate demanding that the foreign treaties he sent to that body should be approved without the dotting of an i or the crossing of a t, said:

The Senate has, of course, the absolute right to reject or amend in any way it sees fit any treaty laid before it, and it is clearly the duty of the Senate to take any step which, in the exercise of its best judgment, it deems to be for the interest of the nation. If, however, in the judgment of the President, a given amendment nullifies a proposed treaty, it seems to me that it is no less clearly his duty to refrain from endeavoring to secure a ratification, by the other contracting power or powers, of the amended treaty; and after much thought I have come to the conclusion that I ought to write and tell you that such is my judgment in this case.

In other words, he boldly puts his judgment against that of the ninety Senators, declares that he is "it," and threatens to withdraw the treaties if his demands are not complied with, thus showing his opinion of the "cattle on the hill," as he once spoke of Congress. But this time the Senate "called" him.

THE SENATE, it is said, has for weeks been watching for an opportunity to break with the President, as it is fully determined to destroy his railroad regulation plans. Not caring to start the war upon that issue, it found some other excuse for opening hostilities, and the ultimatum from the White House regarding the arbitration treaties served the Senate's purpose admirably. As soon as Senator Cullom, in executive session, Saturday finished reading the President's letter demanding that the foreign treaties should be approved just as he had sent them to that body the war cry was sounded and when a vote was taken the President did not know where he was "at."

MAYOR MCCARTHY, of Richmond, has created a sensation by ordering removed from the city's billboards all the posters of a musical fastasy to be presented in that city tonight. The posters are elaborate affairs, and represent scores of shapely maidens, rather lightly clad and representing birds of various kinds. Of course the Mayor's action will have the effect of crowding the house.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Feb. 13.

Before President Roosevelt left for New York this morning he instructed Secretary Hay to pigeonhole the arbitration treaties which were amended by the Senate on Saturday over his protest and despite his threat, made in his letter to Senator Cullom, that if they were altered he would allow them to die. Mr. Hay this morning in reply to numerous inquiries by representatives of the press at the State Department made in substance the following statement: "The President regards the matter of the general arbitration treaties as concluded by the action of the Senate on Saturday. He recognizes the right of the Senate to reject a treaty either by a direct vote in that sense, or indirectly by changes which are incompatible with its spirit and purpose. He considers that with the Senate amendment the treaties not only cease to be a step forward in the cause of general arbitration, but are really a step backward, and therefore he is unable to put them in this altered form to the countries with which we have been in negotiation."

While the almost unanimous verdict of the Senate on Saturday in opposition to the President's ideas would not have been so pointed had it not followed so quickly upon the receipt of the President's letter, while it is probably true that resentment of that letter had some effect on the vote, yet it is equally certain that the final would not have been very different. It would be too much to say that there is open war between the President and the Senate. It has not quite reached that stage yet, but it would be idle for anyone to try to conceal the fact that the Senate is afraid to trust the President too far in matters affecting international relations. It has decided to put a curb on him and to closely scrutinize every diplomatic move of his with a jealous eye for the constitutional prerogatives of the Senate. It was the San Domingo argument that first sounded the note of alarm. That document proposed to commit the United States to a practical suzerainty of a foreign country guaranteeing its territorial integrity and administrating its finances for the settlement of its foreign debt. That argument, with its vast possibilities of future trouble for the United States, was negotiated and signed without consultation with the Senate. Gunboats were sent to San Domingo to help enforce the argument and a definite date was fixed when the United States should take under its control the custom houses of the country. Strong protests from the Senate alone caused a halt in these proceedings. A new argument has been prepared with San Domingo which provides for its ratification by the Senate before becoming operative. It may be sent to the Senate this week. Under ordinary circumstances the debate on it would last many days. Prompt action is however, expected. The Senate fears that, left to himself after Congress adjourns, the President will issue an executive order putting the San Domingo argument into effect until the next meeting of Congress. The Senate will probably put a prompt veto on such action by giving the San Domingo treaty early consideration and by rejecting it by a decisive vote. There is no doubt that the feeling aroused in the Senate over the San Domingo affair had much to do with the vote on the arbitration treaties. It probably had something to do also with the action of the Senate on the Hay-Bond treaty, which the President had hoped would be ratified and would prove an opening wedge for eventual reciprocity with Canada. The Senate proceeded to amend it so that its friends would not accept it with the result that the Hay-Bond treaty also is dead. Altogether, while there is no actual warfare on, the President has not been happy in his dealings with the Senate on executive matters. He is not likely to be any more so in his desire for railroad rate legislation at this session.

President Roosevelt, accompanied by Mrs. Roosevelt, Secretary and Mrs. Taft, Mrs. Cowles, Mr. and Mrs. E. Roosevelt, left for New York at ten o'clock. Arriving about three o'clock, the President will be escorted to the New York Republican Club where he will meet the members of the organization and remain until time for the club's Lincoln Day banquet at the Waldorf-Astoria this evening. At this banquet he will make an address that will attract probably more general discussion than any he has delivered since he became President. It will take up and treat a subject of vital interest to the nation that he has heretofore merely touched upon. After the address he will attend the Press Club banquet at the New Hotel Astor. Tomorrow evening he will be the guest of honor at a dinner to be given by the Hungarian Republican Club in "Little Hungary," in keeping with a promise made when he was governor of New York contingent upon his election as President. He will return to Washington after the dinner.

He reported to work this morning and was swinging himself onto the swinging ladder for the purpose of painting the cornice when the rope which supported the ladder parted. He was a married man living at 149 Jefferson street, Anacostia, and was 26 years of age. His body was taken to the morgue.

Mr. Bacon presented in the Senate today a resolution directing that committee to investigate all facts connected with agreement entered into June 30, 1903, between the United States government and the Republic of Santo Domingo.

Representative Williams, of Oregon, indicted by the federal grand jury at Portland Saturday last on the charges of complicity in the land frauds, will have for his home shortly to prepare for his trial. The indictment charges that the Oregon Representative and was partner in the sheep raising business secured many acres of grazing land through fraudulent entries by persons operating for them. Mr. Williams said this morning: "Hereafter I shall keep away from the House of Representatives. I have high ideals as to what the House should be and I believe it would be an affront to my fellow members for me to appear on the floor while this cloud is hanging over me." Representative Binger Hermann, Mr. Williams's colleague, who is also under indictment, takes a different view of the ethics of the case. He has been regularly attending the sessions of the House since his indictment and has voted on all pending questions. Senator Mitchell, who was indicted jointly with Mr. Hermann, has absented himself from the Senate since making his public declaration of innocence.

Grand Lodge A., F. and A. M.

The Grand Lodge of Masons of Virginia will convene in Richmond tomorrow evening, February 14th, in their annual session. Grand Master Thomas N. Davis, of Lynchburg, will preside over the session. This will be the first meeting of the Grand Lodge since December, 1903, the date of the annual assembling of the body having been changed at that session to February 14, 1905. It was not deemed desirable to have a session in 1904, following so closely upon the session of 1903. The grand lodge has been meeting in December ever since its organization up to this time. The feature of greatest interest in the session is the election of officers, this, as usual, bringing about a pretty contest. The attendance will not be large if the unusually severe weather continues. A meeting of masonic officers was held at the temple on Saturday to prepare for the grand lodge session.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

After a journey fraught with peril and hardship, the Rev. J. W. Briscoe, pastor of the Methodist Church at Holland's Island, Md., reached the bedside of his wife in Norfolk Saturday night. In a blinding snowstorm the minister walked across an arm of the frozen Chespeake Bay, a distance of six miles, continued his journey ten miles on the mainland afoot, made his way across another wide stretch in a rowboat that threatened every minute to break to pieces in the heavy ice floe, then drove twenty-four miles across country to Cambridge, Md., where he caught a train for Norfolk. Holland's Island has been completely cut off from the rest of the world since January 17, consequently the pastor had no means of knowing the condition of his sick wife in Norfolk. He found her almost well.

CONGRESSIONAL.

The entire time of the Senate Saturday, which was not spent in executive session, was given to the Swayne impeachment trial. Four witnesses were examined. All of them were from Pensacola, Fla., and they were introduced for the purpose of showing that up to 1900 Judge Swayne had not acquired a residence in his district in Florida. During the proceedings the question of the right of the House managers to object to questions put to witnesses by Senators was raised, but the presiding officer ruled that such objections might be stated. The precedents quoted were to the effect that while questions by Senators should be admitted, counsel could properly object to the admissibility of replies made to them. The Senate, by a vote of 50 to 9, passed an amendment to all of the arbitration treaties by substituting the word "treaty" for "agreement" in the second article of each. It was this amendment to which the President was opposed. As thus amended all the treaties were ratified.

The House passed all but two of the steamboat inspection bills reported from the committee on merchant marine and fisheries, growing out of the General Slocum disaster. They provide rigid rules for the control of the steamboat service. The bill for the reinstatement of three midshipmen dismissed from the Naval Academy for hazing was passed, as was a large number of minor measures.

The House adjourned at 5:58 o'clock until Sunday at noon, when services were held in memory of the late Senator Hoar.

Today's Telegraphic News

Protecting the President.

New York, Feb. 13.—Extraordinary precautions have been taken to protect President Roosevelt who arrives this afternoon from Washington for a two days social stay in New York. The President will be more closely guarded than any President has ever been before. More than two thousand policemen have been detailed for the sole duty of guarding his person. A force of secret service men will accompany the President from Washington and they will co-operate with the squad of detectives and sergeants of the local police to watch the chief magistrate President Roosevelt will arrive in a special car attached to the regular Pennsylvania express due at Jersey City at 3:10 p. m. With him will be Secretary of War Taft, Private Secretary Loeb, Dr. Charles F. Stokes, of the navy, and the secret service men. A detachment of mounted police will surround the President's carriage on the ferry boat in Jersey City and will accompany him to the Republican Club. Behind the carriage the secret service men and detectives will be driven in cabs. Similar precaution will be taken whenever the President drives through the streets.

Appleyard.

Buffalo, N. Y., Feb. 13.—Detective Sergeant Holmes who went to Boston and served Governor Higgins requisition papers for Arthur E. Appleyard, charged with being implicated in the wrecking of the German Bank, brought back with him some information, concerning the Boston promoter's apparent frame of mind. "I don't know whether he has lost any flesh or not, as I never saw him before, but he looks worried," said Holmes. Under the advice of his counsel, Senator Willams, he is not talking much about his affairs, but he did say that one reason he is opposed to coming back to Buffalo is that he knows that the sentiment here is strongly against him. He says he is innocent of all wrong doing, and that he can produce evidence ample to vindicate himself before a jury of unprejudiced men, but that the sentiment in Buffalo is such that he doubts he could get a fair hearing. So he will fight extradition to the limit. He intimated that he is more sinned against than sinning, and that he was a victim instead of a victimizer when he bought the stock in the German Bank at $7,500 a share. He says at that time, as he has since learned, the bank held nearly 1,000,000 of bad paper and was practically insolvent. He seems to believe he was gold-bricked. Although we didn't think Appleyard intended to run away, we took no chances, and before delivering the requisition papers, we applied to the municipal court for a fugitive warrant. The warrant was issued."

Schism in "Zion."

Chicago, Feb. 13.—Schism is threatening Zion during the absence of Dr. Dowie. The heretics are led by Overseer Specher, who took issue with his chiefs and caused a stir in the tabernacle by announcing two new professions of faith. One was the meat trust is such a good thing that it should be listed as a foreordained; the second was that Roosevelt should be given a throne and his sons be placed in line of succession. Inasmuch as Dr. Dowie on his return from the trip from around the world recently administered a vehement lashing to monarchies in general and to King Edward in particular the heresy may result in an ecclesiastical court of inquiry when the prophet returns. Dr. Dowie says the monarchies are the invention of the evil one, while Overseer Speicher asserts that they are the will of heaven.

Mysterious Death.

Philadelphia, Feb. 13.—The Tenderloin police think they have a sensational case of murder to investigate. The corpse of a young woman, well dressed, was found today in a manure pit at the Union Transfer Company's stables, Juniper and Cherry streets. A deep wound across her head gives rise to the foul play theory. The pit has an opening from the street by means of a chute. Five loads of manure had been placed on the body. The pit was cleaned out yesterday morning and the body must have been placed there within the past twenty-four hours.

General Grippenberg.

St. Petersburg, Feb. 13.—It is officially announced that General Grippenberg will return from the front, and will be succeeded in command of the second Manchurian army by General Bilderling. The exact causes leading up to the return of General Grippenberg are not known. In semi-official circles, it is stated that the general has been forced to relinquish his command, owing to ill health. Press dispatches from the front, however, assert that the return is in the nature of a recall. General Grippenberg was entrusted with the advance of the Russians begun on January 25. It is stated he did not follow the instructions given by General Kuropatkin, and the defeat of the forward movement followed.

"Too Young to Marry Yet."

Madrid, Feb. 13.—King Alfonso is proving most intractable in the matter of marrying the daughter of the Duke of Connaught, or any other lady selected for him as consort. He and the queen mother frequently have heated arguments on the matter. The king declares he is not ready to marry before he is twenty years old, while the members of the court, including the Marquis of Touar, are arguing with him that an early marriage is necessary to maintain the dynasty. To these latter arguments, the king replied: "I am yet too young. Nobody can become a composer before he has studied harmony."

Lawson and Standard Oil.

Boston, Feb. 13.—Friends of Thomas W. Lawson state today that he is ready to join issue with the State of Kansas in its fight against the Standard Oil Company. A friend of Mr. Lawson said that he has certain evidence of great value to the legislature of that State, and within a few days every important man in Kansas, from the governor down, would receive literature especially prepared by the Boston copper magnate, showing how the oil trust and certain railroads worked in Kansas and in the far western States.

The Greason Case.

Philadelphia, Feb. 13.—Attorney representing Mrs. Kate Edwards the murderess of her husband shortly before noon today, filed in the Supreme Court a petition asking for a new trial for Samuel Greason, the woman's negro lover and alleged accomplice. Fifty-Eighth Congress.

Washington, Feb. 13.

SENATE.

The Senate again this evening resolved itself into a court of impeachment to try the charges against Judge Swayne.

Representative Sullivan, of Massachusetts, who gave notice on Friday that he would rise to a question of personal privilege made a sensational and personal attack on W. R. Heart, of New York, on the floor of the House this afternoon. The House was crowded and members flocked about Mr. Sullivan's desk so as not to lose a word.

Mr. Hearst was present and later arose to reply, being heard for the first time since his election to Congress. His reply was quite as sensational as Mr. Sullivan's attack.

McCUE'S BURIAL.

The funeral of J. Samuel McCue took place at 11 o'clock Saturday morning from the residence of his sister, Mrs. W. S. Rhodes, the old McCue place, in the western part of Albemarle county, near the Nelson county line, a very short distance from the childhood home of the deceased. The usual Presbyterian services were conducted by the Rev. Dr. G. L. Petrie, of Charlottesville assisted by the Rev. H. B. Lee, rector at Charlottesville, and Rev. C. E. Caldwell, of Richmond. The attendance was large, including quite a number of Charlottesville friends of the former Mayor. The McCue family, including the children of the deceased, attended the funeral. The interment was in the cemetery at "Brookville," beside his father and mother, to whom McCue often referred most tenderly in recent days.

Six of the seven brothers of the deceased acted as pallbearers.

The casket is an expensive one, but was modest in appearance and without excessive ornamentation. The floral offerings were profuse and beautiful, one Charlottesville florist filling orders to the amount of two wagon loads. These offerings were from relatives. The scene at the grave was an exceedingly pathetic one.

One of the ministers who carefully looked after the spiritual welfare of the ex-Mayor, denied Saturday any knowledge of a confession in which the prisoner said that he had shot his wife while she was on her knees pleading for her life.

Rev. Dr. John B. Turpin, at the close of one of his visits to the prisoner on February 4th, was asked to tarry a moment. McCue, turning to his table, wrote the following note.

Dr. John B. Turpin, city:

My Dear Brother,—"God is a spirit, infinite, eternal and unchangeable in His being, wisdom, power, holiness, justice, goodness and truth." All of these beautiful attributes He has been to me, His often erring, but now redeemed child.

Your brother in Christ,
J. SAMUEL MCCUE.

McCue was very familiar with the shorter catechism, as the definition of God will indicate to those who are familiar with it, as will be seen from the paper. He used that description of God on this occasion as leading up to his confession of faith. When he had finished writing the paper, he folded it up in his usual neat and business like manner and handing it to the minister asked him to keep it and give it to the public after he had gone.

On the night preceding his execution, just before he fell asleep, Mr. McCue turned to the two ministers present and asked if there was anything else that he could say or do. They replied there was not, and the prisoner thereupon recited the Apostles' Creed. At the conclusion, he said fervently: "I believe all that."

McCue said in his conversation with the ministers that when he committed the crime he was temporarily insane, but without doubt meant that he was beyond himself in his passion.

It was stated on good authority Saturday that at one time during the trial he was on the point of testifying fully as to the crime, but for some reason he changed his mind.

Letter to Prof. Blackburn,

Alexandria, Va.

Dear Sir: You are a teacher; here's one for your boys.

If the painting costs two or three times as much as the paint, and one paint goes twice as far as another, how much are those two paints worth?

If Devoe is worth $1.50 or $1.75 a gallon, how much is the other one worth?

How much is a gallon of paint worth anyhow?

The answer is: Depends on the paint.

The reason is: paint isn't always paint. There are true and false paints and short-measure.

How much is a short-measure gallon worth? How much is false paint worth? How much is Devoe worth?

There are millions a year in the answer to this last one. Yours truly,

F W DEVOE & CO

Officers Suspended.

Mayor Paff on Saturday night examined the charges against Officers Wm. Ferguson and Herbert Knight, and suspended both for a period of five days. The officers were charged with entering a Royal street saloon on the morning of Monday, the 16th instant, and drinking at the bar in violation of section 5 of the rules governing the police force. The charge was made by W. W. Brown and the witnesses were Messrs. John Shuman and Wm. Carter. Mr. Ferguson alleged that he had been suffering from a disordered stomach and drank Conskamp bitters as a medicine. Mr. Knight acknowledged that he drank whisky, but urged, in extenuation, that he and Mr. Ferguson were almost exhausted, having been pelted by hail all night while endeavoring to guard bread boxes from thieves. He also asserted that the complainant Brown had been actuated by a spirit of revenge, as there had been friction between Brown and himself on a previous occasion. The officer was about to go into details when he was stopped by the Mayor, and told to confine his remarks to the case under consideration. Mr. Shuman, one of the witnesses summoned, corroborated the statements of the two officers, while Mr. Carter said he saw two men drink at the bar on the morning named, but as they wore citizens' clothes, he was not sure they were policemen. Officer Henderson testified that Mr. Ferguson entered the station house several times on the night preceding the morning he and Mr. Knight entered the saloon and complained of being sick. Mayor Paff read the rule and said the penalty for its infraction was dismissal from the force, but he would make the punishment as light as possible. He therefore suspended the officers for a term of five days, beginning this morning. Mr. Paff said the working of the police force was not satisfactory to him, and he intended to do all in his power to bring it up to the proper standard. The complainant Brown before leaving the court room stated that he would prefer charges with the Board of Police Commissioners against Officer Knight for trying to bring his domestic affairs into the investigation.

Alexandria Hospital.

The annual reports of the treasurer, managers, matron and auxiliary societies of the Alexandria Hospital for the year 1904 have been submitted. The treasurer's report shows receipts from all sources (including balance of $2,550.25 from last year, and $3,110.95 boarding and pay patients) $7,555.98, and expenses $5,934.44—leaving a balance on hand of $1,621.54.

The matron reports: "At the beginning of the year there were 13 patients in the institution. There have been during the year 376 admissions, making a total of 389 cases treated during that period. The results are as follows: Cured 317, improved 12, incurable 8. There are at present 17 patients in the institution. Three nurses have graduated since the last report. Four new pupils have joined the corps of nurses. Among the acknowledgements are: St. Paul's Church, $243.48; Christ Church, $137.05; Presbyterian Church, $23.16; M. P. Church, $8.50; Baptist Church, $12.91; Trinity, $14; M. E. Church South, $16.93; Alexandria Council Jewish Women, $5; miscellaneous, $161.50. Accompanying the report is that of the work done by the Circles of Kings Daughters which tells of what the ladies of these circles are doing for the hospital."

The Highway Bridge.

The committee of twelve citizens of Jefferson district, Alexandria county, appointed to meet the county supervisors and protest against the dimensions of the highway bridge which will span the freight yards near Alexandria, was heard by the board of supervisors at the county courthouse Saturday night. Maj. E. T. D. Myers, the president of the Washington-Southern road, and Mr. W. K. Martin, the chief engineer, were present, and Attorney John M. Johnson, of this city, appeared for those who opposed the plans already adopted, which provided for a twenty-four-foot carriage way and a four foot walk way. After some discussion and an appeal by Dr. Rust, the representative of Jefferson district, Maj. Myers agreed to a twenty-eight-foot carriage way and a five-foot walk way.

Mr. John M. Johnson says that before any opportunity was given himself or his clients to discuss the matter on its merits one of the three supervisors practically said that he felt bound by the agreement made with the Washington Southern Railway officials some time since, which provided for a 28-foot bridge including the walkway, and the other two by their silence seemingly gave consent.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Grover Jenkins, arrested by Officers Bettis and Mayhugh, charged with disorderly conduct, was fined $2.50. Alexander Jenkins, arrested by the same officers on the same charge, was dismissed.

Otto Kalwit, arrested on a peace warrant at the instance of George Hick, was released on his personal recognizance to keep the peace.

Paul Thomas, colored, arrested by Officer Knight charged with stealing the chamber of an air pump from the Southern Railway Company, was fined $50 and in default of payment sent to jail for 90 days.

Anderson Jackson, colored, alias "Richmond Kid," charged with stealing a pushcart from O. Nugent, was fined $10.

Elmer Nightingill, Edward Drowns, Augustus Robinson and Herbert Struder, arrested by Officers Smith and Ferguson charged with stealing tobacco from a Southern Railway car, were released on their personal recognizance to appear when wanted.

A white man, charged with disorderly conduct; was fined $2.50.

The show announced to be presented at the Lyceum on the 20th instant has been cancelled.

Case Continued.

The case of Herbert Struder, Elmer Nightingill, Edward Drowns and Augustus Robinson, the four youths arrested a day or two ago charged with stealing tobacco from a Southern Railway car, came up in the Police Court this morning. After Officer Smith had made a statement to the effect that he and Mr. Ferguson had discovered most of the stolen property in an unoccupied stable near the Stone bridge, and that the officers had ascertained that attempts had been made by the suspected boys to sell portions of the same, Struder took the stand for the prosecution and stated that one of the other youths in the dock had given him the tobacco to sell; that he was told it had been won at a raffle; that the tobacco was in the boys' pockets; that he took it from them, placed the bars in his pockets, entered a store in the southwestern part of the city and disposed of it for $3. Struder said he received none of the money. One of the proprietors of the store in which the tobacco was disposed of testified that Struder brought the tobacco to his place in a basket; said he had won it at a raffle in a saloon on north Fairfax street; the lot weighed 11 pounds; witness paid a fair market price for it; said he had always known Struder to be an honest young man; hence he did not question his statement. The three boys in the dock denied having had any dealings with Struder; one stated that he was at home at the time Struder said he met him on south Fairfax street. No witnesses appeared to substantiate Struder's statement, and Justice Caton released the youths on their personal recognizance to appear when wanted.

The Weather and River.

The gloomy weather of Saturday and Saturday night was followed yesterday morning by snow. Hail succeeded the snow, and the former in the afternoon gave place to rain. The temperature was not what might be considered cold, but the elements kept most people within-doors. The churches were not well-attended at either the morning or night services.

Wintry conditions prevailed again this morning. Snow began to fall early in the day. An interval followed, but shortly before noon flakes again filled the air. A strong northwest wind accompanied the snow and the temperature fell rapidly. The advance guard of the western blizzard has reached this section, and colder conditions will doubtless prevail during the next day or two.

Today is the six h anniversary of one of the fiercest frigid waves that ever struck this vicinity. The snow banked high and railroad traffic was brought to a temporary standstill. A smallpox epidemic followed.

The ice in the channel of the river has softened considerably during the past 48 hours, and propeller steamers encounter no serious difficulty in running. The ice in the docks and on the flats is still firm with but little indications of yielding.

Alleged Bank Robbery.

Robert Casey, one of the persons indicted last Monday for robbing the National Bank of Manassas on the night of November, 11, 1904, and who was arrested in Philadelphia a few weeks ago, is now in the custody of the Virginia authorities. He was taken to Manassas by Sheriff Rorabaug Saturday morning and was that evening brought to the Alexandria county jail for safe keeping. Casey is a large, rough-looking man and appears to be about forty years of age. He is familiar with this section of the country and has evidently been around here before. Casey told Jailer Cornwell that he left home when a young man on account of trouble he had with his father; he also said that his father is wealthy and that when the time for trial comes he will have lots of money to employ able counsel to defend him. Indictments have been found against Casey; William Smith, alias California Bill, Frank Burns, James King, alias James Crennan; Edward Fitzpatrick, and James A. Galleher. All but Casey are still in custody in Baltimore.

Imaginary Troubles.

"Evils we dread most never overtake us," is an ancient proverb, but its truth is often noticeable in our day. Many people last summer, pressed by imaginary impending peril, feared that a serious epidemic of smallpox would break out in this city and neighborhood during the present winter. They urged that the many laborers, white and colored, who would be engaged in railroad work near Alexandria would surely cause an outbreak of the much-dreaded disease. We have passed through a considerable portion of the frigid season, and so far nothing in the nature of smallpox has occurred to cause apprehension.

Opera House Tonight.

The J. L. Tempest Dramatic Company will begin a week's engagement at the Opera House tonight. The company arrived in town yesterday evening and brought with them a large quantity of scenery. Tonight they will present Miss Jennie Tempest in the scenic production "The Vagabond's Wife." All new and up to-date specialties will be presented between the acts. A week of good plays is promised the theatre-going public, and good, clean dramas. Tomorrow night, "Lady Audley's Secret" will be produced.

Overhead Trolley for Bridge.

Mr. Rixey on Saturday introduced a bill in the House authorizing the Washington, Alexandria and Mount Vernon Railway Company, in using the new highway bridge, to install an overhead trolley system from Fourteenth street and Maryland avenue southwest to the south end of the bridge. "It is provided that this system shall be used for not more than fourteen months after the completion of the bridge, after which an underground system must be installed, in compliance with the act of February 12, 1901.

The Gazette.

That excellent and newsy paper, the Alexandria Gazette, has entered upon the 106th year of its existence. Besides being bold and fearless in its editorial management—presided over now by the third or fourth generation of Snowdens—it gathers news from the four corners, and is also an excellent local paper.—[Virginian Citizen.

Fiendish Suffering

To Sell Stable of Hunters.

The following announcement from the New York Herald of yesterday will come as a surprise to many of the friends of Mr. Courtland H. Smith, as well as to the sporting world generally. Mr. Smith's great success with his hunters, in the field and in the show ring, and the unquestioned claim his stable has to excellence and true merit as seen by his many winnings, will appeal to all lovers of fine horses, and will no doubt realize for him the substantial rewards of his great personal efforts to bring the Virginia hunter to the front as the best of all American jumpers. We wish him all success:

Not since the record breaking sale of Foxhall Keene's horses and hounds at Van Tassell & Kearney's new show ring last season has the hunting contingent heard anything quite so interesting as the announcement that Courtland H. Smith's great stable of cross country winners will be dispersed in New York on the evening of Saturday, April 8, prior to their owner's departure for Europe. Mr. Smith is master of the Cameron Run hounds, at Alexandria, Va., and is known among hunting men throughout America and England as the possessor of a string of show horses that ranks easily as the first of its class in this country, if not in the world. The collection includes a grand lot of qualified hunters and prize winners, such as Garnett Ripple, Lucy Sutherland, Tip-Top, Chappie Lee, Palm Room, Up to Date, Colonel Hawkins, Bo Bar, Ogunquit and New Zealand—all horses that have won wherever shown in the hottest of company. To collect this string of winners Mr. Smith has spared neither time nor expense, having selected the animals from many hundreds owned at various times by him. All of them have been regularly hunted by Mr. and Mrs. Smith with the Cameron Run hounds and are well schooled mounts for any one. It is probable there has never been offered to the hunting contingent a better opportunity to obtain cross country horses without the mark of a firing iron on a single one, and to this may be added that they all have the best of mouths and manners, and can negotiate any country, no matter how big or stiff or trappy. Mr. Smith's selection of Van Tassell & Kearney to conduct this important special sale is a deserved tribute to the oldest firm in the auction business in New York, and is the natural sequence of the sensational Keene disposal sale last season. In their new show ring Van Tassel & Kearney have what is probably the most perfectly appointed place in the world for holding such a sale, and their long experience and strong following make its success a foregone conclusion.

Republican Committee.

A meeting of the republican Congressional committee of the Eighth district was held in the rooms of the Business Men's League, in this city, today at 1 o'clock, for the purpose of electing a State committeeman to fill the vacancy caused by the resignation of Postmaster Joseph L. Crupper, of this city. Mr. H. P. Dodge, of Manassas, presided, Mr. E. L. Howard, acting as secretary. All the counties in the district, except Culpeper, were represented either in person or by proxy. Mr. Hoge, of Loudoun, nominated W. B. King, of Loudoun, for committeeman and the nomination was seconded by Messrs. Grayson, Crupper and Lowry. Mr. King was then unanimously elected committeeman and accepted the position in a speech, thanking the meeting for the honor conferred upon him. Mr. Grayson, who was a candidate for the position, withdrew before the meeting was called to order and supported Mr. King.

St. Valentine's Day.

Tomorrow will be St. Valentine's Day. As usual when this day draws near some shop windows are filled with colored slips representing individuals in nearly every calling in life in the most grotesque forms, and the younger generation experience considerable pleasure in slipping them under doors or into the pockets of their elders. In most instances the familiarity is taken good-naturedly. In other cases, however, irascible persons become incensed and pretend they are ready to pay handsome sums for the identity of the individuals who have the temerity to rouse their bombastic ire. Lovers, sighing like furnace, purchase beautiful specimens of the stationer's art and send them to their Dulcineas as evidences of the wounds made by Cupid's arrows.

No Meeting

The meeting of the House committee on the District of Columbia, called for Saturday, especially to consider the bill authorizing the construction of a cross town street railway in Washington by the Great Falls and Old Dominion Railway Company, was not held, owing to the fact that not a quorum of the committee was in attendance. By some this is regarded as a death blow to any chances the bill might have had for a favorable report from the committee during the present Congress.

Assembly Organized.

The fourth degree members of Fitzgerald Council, No. 459, Knights of Columbus, met at the home of Dr. E. A. Gorman, on Duke street, yesterday and organized an assembly to be known as Fitzgerald Assembly No. 459, K of C. The following officers were elected: Chairman, Dr. E. A. German; recording secretary, M. J. McFarland; financial secretary and treasurer, S. A. Breen; outside sentinel, Richard L. Carne; inside sentinel, Harrie L. Wheatley.

Slip Slop.

Slip, slop, hipity hop flop! Scarce a midshipmite or a bosun tight could keep his pins in the streets last night. The rain came down, and hard it froze; feet went up and bruised the nose. The town was one vast skating rink, every gutter a glacier's brink. Snow, trod down by many feet, soon became a glare ice sheet and the antics in the street—for Sunday night they were not meet. So, slip, slop hipity hop, flop!

In the New Building.

Messrs. Burke & Herbert took possession of their new banking house, on the southeast corner of King and Fairfax streets, this morning. The usual number of persons transacted business with the firm notwithstanding the unpropitious weather, and all who entered the new structure were profuse in their praises of its capaciousness and modern appointments.

Another Delay.

The House Saturday afternoon passed a bill providing that the time limit for the construction of the highway bridge across the Potomac be extended to February 12, 1906. The bill passed the Senate on March 24, 1904. This is but another illustration of the influence the Pennsylvania Railroad has over the Congress of the United States.

ANGERED AT STANDARD OIL.

The people of Kansas are aroused as never before in the State's history over the action of the Standard Oil Co. in shutting down all operations in that State.

Dispatches from the oil fields last night say that the statement of Manager O'Brien that business in Kansas would be continued is incorrect and that there is a complete shutdown throughout the oil belt. This has intensified the indignation of the people and members of the legislature, and the passage of the anti-Standard bills by the House Wednesday is assured. Thousands of letters from over the State have been received by members urging them to pass the State refinery bill.

The Chanute oil producers Saturday night voted unanimously to communicate with Thomas W. Lawson, of Boston, and the Pure Oil Company of Pennsylvania and invite them to interest themselves in the refining of the crude petroleum and the manufacture of its by-products in Kansas and to advise them that in the judgment of the association they would have the hearty co-operation of the people of Kansas.

At a meeting Sunday of the Western Oil Men's Association in Toledo, Ohio, composed of crude oil producers in the Trenton rock and oil fields of Ohio and Indiana, the situation in Kansas was discussed by the 30 or 40 members present and resolutions were unanimously adopted which declare that the State of Kansas is entitled to the sympathy and moral support of the oil trade everywhere in its contest with the Standard Oil Company; that the company, in promulgating the extraordinary order suspending operations in the Kansas field, has violated high-class business principles and been guilty of an act that is against good public policy.

The Kansas Legislature is backed in its efforts to secure relief to the trade and to see that justice is done, and the hope is expressed that the State will see that the independent producers have a square deal and are supported in a substantial manner in their efforts to obtain relief from an oppressive situation. All oil producers in other fields are urged to aid the Kansas men in maintaining their priority rights.

It was the consenses of opinion that the action of the Standard Oil Company in suspending all work in the Kansas fields was due not so much to the refinery bill now before the legislature of that State as to the bill making pipe lines common carriers.

Experimental Orchard.

The Department of Agriculture has taken action, which can be construed to mean that in Virginia there is a section which is, in the opinion of the department experts, better adapted to the growth of fruit, especially apples, than is any other in the United States. The department has just concluded an arrangement with Hon. S. L. Lupton through which an experimental commercial orchard will be established on his farm, in Frederick county, near Winchester, and which will be made the model orchard of the United States. The agreement is indefinite as to duration, and, from the nature of the case, will run for many years. The proceeds of the orchard, which is to embrace forty acres, will go to Mr. Lupton, and the department will aid him in selling the fruit. The arrangement may be advantageous to Mr. Lupton directly, and it is certain to be of immense advantage to the fruit growers of that section of country extending from Hagerstown to the North Carolina line, which the pomologists of the Department of Agriculture pronounce the finest fruit country in America. The orchard which will be planted on Mr. Lupton's farm by the department will embrace forty acres. It will be devoted to apples almost entirely.

A Touching Story

is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious Throat Trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for Consumption, Coughs and Colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At E. S. Leadbeater & Sons' drug store; 50c and $1.00 guaranteed. Trial bottle free.

Perfect Confidence.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him prompt relief." For sale by Gibson & Timberman and W. F. Creighton & Co.
